REPORT.

To the Honorable the Senate and House of Representatives of the State of Louisiana, in General Assembly convened.

The Administrators of the Charity Hospital, of the City of New Orleans, beg leave to submit to your consideration the following statement of their affairs.

The number of patients admitted into the Charity Hospital during the ten months, ending 31st October, 1861, was.....	8,665
Of which were dscharged.....	7,918
Died.....	799
Remaining in the Hospital.....	423

From the statement of the Finance Committee, hereto annexed, it will appear that the balance in the hands of the Treasurer on the 1st of January, 1861, was \$4,492 82. The disbursements during the ten months ending 31st October, 1861, amounted to \$78,339 54, and the balance on hand on the 1st day of November, 1861, was \$3,767 56. As will be seen by a reference to our last report, the debt of the Hospital, including expenses for new buildings and repairs, amounted to about \$45,500. An appropriation was made to pay off this debt and to meet the other expenses of the Institution, but as the appropriation was made payable in equal quarterly instalments, maturing in April, July, October, 1861, and January, 1862, the Board have not realized enough from the appropriation to meet the current demands of the Institution, and at the same time liquidate past obligations. It is to be remarked that during the current year, the price of almost every article of necessary consumption has risen to an unprecedented extent. This is especially the case with regard to those articles which are required in the Hospital; many of which have risen four-fold and some ten-fold in value.

This increase in expenditure, falls upon us at a time when all the ordinary sources of income provided for our support have been cut off. For instance, the tax on emigrants which formerly yielded upon an average from forty to fifty thousand dollars per annum, has been entirely cut off by the blockade.

In asking the Legislature for renewed appropriations for the next fourteen months, we would respectfully refer to the fact that this Institution is now, and probably will continue during the existing war, to be the most convenient if not the only refuge in the south-west for sick and disabled soldiers and mariners. The patients of the old Marine Hospital having been transferred to the Charity Hospital, we have been compelled to set apart several wards for the accommodation of sick soldiers and sailors, and although through the kind assistance of Collector Hatch, a small fund in his hands (\$1,023), set apart for the support of the old Marine Hospital has been paid over to the Treasurer, yet, with this exception, no provision has as yet been made by the Confederate Congress, nor have any funds been furnished by the Administration for their support.

For the ensuing year, the Charity Hospital will be compelled from the exigencies of the case, not only to meet the ordinary demands of the sick and disabled, but to subserve to some extent the purposes of a military and naval hospital, at a time when an ample provision of this nature is indispensable.

In view of the many difficulties thrown upon us by the exigencies of war, and of the increased demand upon the Institution which its continuance will necessarily create, we respectfully ask for such appropriations as may appear to your honorable body to be reasonable and proper.

All which is respectfully submitted,

J. N. LEA,
Vice-President of the Board of Administrators.

NEW ORLEANS, November 14, 1861:

STATEMENT "H."

EXPENDITURES OF CHARITY HOSPITAL FOR 1861, UP TO
NOVEMBER 1st.
